Setup Github for FRC (Mac OS Operating system)

1. Install XCode command line tools

```
Last login: Sat Jan 12 08:43:02 on ttys001
localhost:~ mark$ xcode-select --install
```
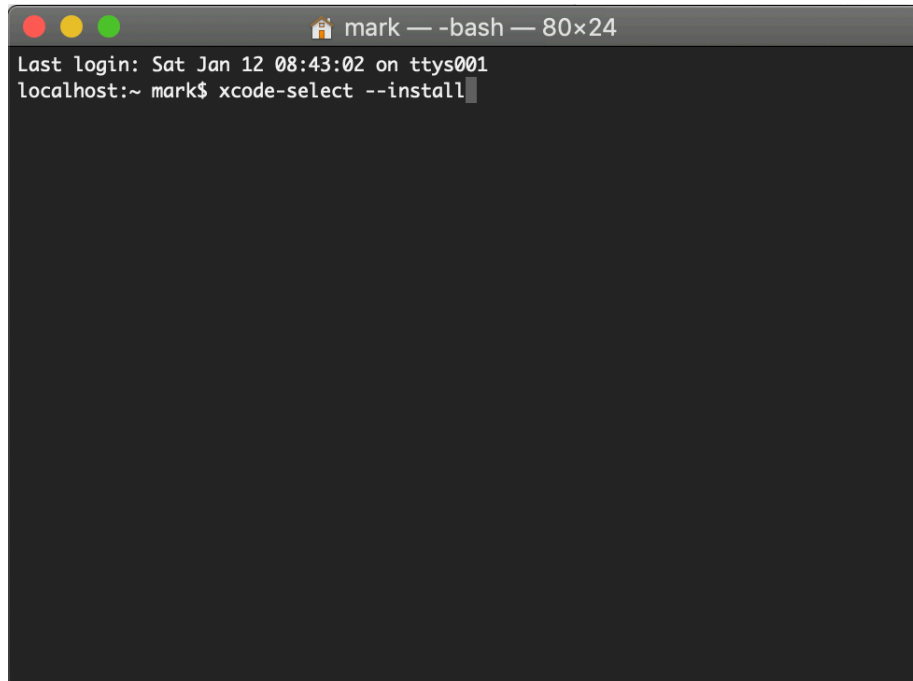

2. Install Git 安装 Git

   Copy and paste onto terminal （Terminal 输入以下命令）

```
ruby -e "$(curl -fsSL
https://raw.githubusercontent.com/Homebrew/install/master/install)"
brew doctor
```
   And then this
```
brew install git
```

3. (Optional) Install Github Desktop
   https://desktop.github.com/

   根据指示完成安装

4. 联系我（李皓翔）或焦老师来设置权限
5. Clone into local repo 克隆到本地存储库

(新建文件夹)

6. 如果需要学习 Git 可以用以下的链接
   https://www.youtube.com/watch?v=SWYqp7iY_Tc

7. 使用 VSCode 开启 Git 文件夹

(File → Open)
